

### Introducing Holganix PB1:

PB1 is a synergistic blend of Holganix-infused components, including a high concentration of 8 species of beneficial bacteria and mycorrhizae, enhanced with Armament technology to improve nutrient utilization.

### Key PB1 Benefits:

#### Boosts the Nitrification Cycle

Contains nitrogen-fixing bacteria to convert air and soil-locked nitrogen into plant usable nutrients

Provides predictable plant and soil responses

#### Stronger Plant Immune System

Grows healthier, stronger, more resilient plants that are better able to defend against insects, disease, environmental stresses, and tournament wear

#### Deeper, Stronger, Web-Like Root System

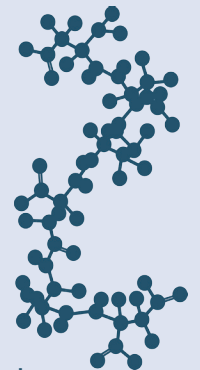

Better playability and quicker recovery due to improved nutrient uptake

Reduced water requirements

#### Spray Tank Compatible

Armament technology and a proprietary stabilization process keeps Holganix components in solution and in suspension, preventing interactions in the spray tank and allowing compatibility with most fungicides and pesticides

### Directions for Use:

Use Holganix PB1 independently or in conjunction with other Holganix products: Holganix Blend 66GC-CT and Healthy Grow fertilizers infused with Holganix

**NO  
REFRIGERATION  
REQUIRED**

#### Golf Course Greens & Tees

Inoculation - 6 oz / 1000 sq ft  
 Maintenance - 3 oz / 1000 sq ft  
 monthly throughout the growing season

#### Golf Course Fairways

3 oz / 1000 sq ft  
 monthly throughout the growing season
